Re: Token of appreciation

Dear Mr Efrayim Goldstein,

I take the time to write this letter to you as a note of gratitude for all your efforts and support that you awarded Hatzola and the community during the onslaught of the sudden Covid 19 Pandemic in 2020 which has hit our community badly R”L.

I make note of what comes to my mind of the endless work you were involved in relation to Hatzola throughout this trying time.

The 24-hour Covid response support hotline which unified many organisations as a single panel, thus achieving much more by working together, faster, advising, and assisting people to shield, be sustained and not further infect others. Furthermore, arranging posters to be hung in *Shuls* raising high levels of awareness; certainly, made people more cautious of their surroundings and no doubt saved lives, a huge impact which fruits of are still ongoing.

Organising appreciation packages for members of Hatzola and their families, including Lag Bo’Omer and Shavuot treats, as well as the Pesach packages from the Cost Shop was a huge help for our members. The 20% discount campaign for Hatzola members; a huge help for our members, giving them the courage to continue with their life saving work and putting themselves on the front lines.

And finally, the major Ambulance and Response Cars successful campaign, which, a large proportion of its donations attributed directly to yourself.

You have done so much for Hatzola from your own goodwill during the Covid Pandemic, this troubling time when the community needed help more than ever, when others were afraid you came out and offered anything and everything.

Your efforts are truly appreciated and no doubt the countless lives saved will always remain a *Zchus* for you and coming generations IYH. May Hashem grant you lots of *Simcha and Mazal*. you should be able to continue your endeavours in the future.

With Gratitude,

CS Goldman
Trustee
